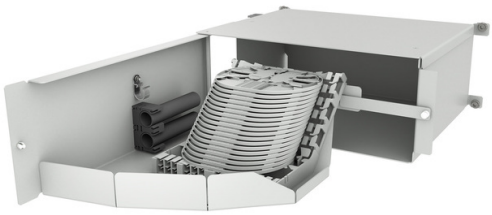
2LINE SM

Splice Module

2LINE SM 2U

Article no.: 21131

The 2LINE Splice Modules are compact connection and termination solutions for the passive fibre optic network components such as the 2LINE ODF or 2LINE MFC. The patented 2LINE splice cassette system comes into play here. The Splice Module is often used in combination with the 2LINE Fanout Module.



- **Splicing of fibres**
