

2LINE SM

Splice Module

2LINE SM 2U

The 2LINE Splice Modules are compact connection and termination solutions for the passive fibre optic network components such as the 2LINE ODF or 2LINE MFC. The patented 2LINE splice cassette system comes into play here. The Splice Module is often used in combination with the 2LINE Fanout Module.

- **Splicing of fibres**

FACTS

Advantages:

- Locking device when module is extended
- Use of splice cassettes for crimp or shrink splice protection
- Availability of mirrored modules

Scope of delivery:

- 1 pc. 2LINE SM
- Fibre divider
- Cassette bottom
- Splice cassettes optional
- 2x corrugated tube Ø21 mm

Dimensions:

- Width 350 mm; Depth 280 mm
- Heights: 2U 88 mm; 3U 132 mm

FEATURES

HU: 2
Splice count: 144
