

# **Membrane injection system**

for buildings without a basement

## MIS60S E BL1300 SET1

Article no.: 3030453466

Suitable for sloping entry through the wall or floor slab.

- universal building entry with membrane injection system for sloping drill holes through floor slabs or walls
- controlled ejection of resin through slit membrane hose
- sealing lips ensure gentle seal for media lines

Picture may differ from selected product

## **Facts**

#### **Material:**

- Waterproof concrete stress class 2, Waterproof concrete stress class 1
- Flange, seal insert, counter-bearing and adapter: EPDM
- Resin filler hose: PE
- Wall rosette: PE
- Pipe: PVC-U
- Wall terminator element: Flame-retardant polycarbonate

### **Advantages:**

- · Quick to assemble in just a few minutes
- Not necessary to restore basement seal to DIN 18533
- · Variety of pre-mounted seal inserts for variable configuration

### Scope of delivery:

- 1 piece of MIS60S
- 1 piece of wall terminator element
- 1 piece of wall rosette
- 10 pieces 2-component resin Resinator, 150 ml

### **Dimensions:**

• For core drills Ø: 62 - 65 mm

• Overall length: 1300 mm

## **Features**

Number of cables/medium: Suitable for medium pipe OD

wall thickness (mm):
